

An AI support agent that answers from **your own store.**

SuperBot puts an AI chat agent on your website. It answers shoppers from your pages, policies, products and the answers you approve, and hands anything it can't finish to your team in a shared inbox.

■ WHAT IT DOES

- **Answers from your content.** Your site, documents and approved Q&A. If the answer isn't there, it says so and offers a person.
- **Hands off to people.** Conversations it can't finish go to a shared inbox.
- **Captures leads** from visitors who want a follow-up.
- **35 widget languages.**
- **Order questions** on supported store platforms.
